SUMMARY

Unity Developer with 4+ years of experience in 3D/VR game development, specialising in **gameplay systems, multiplayer features, AI, and performance optimisation**. Proficient in **C++ and C#**, with experience building **cross-platform games (Android, iOS, PC, VR)**. Strong focus on **real-time interaction, player experience, and scalable game architecture**, with proven ability to deliver high-quality interactive systems.

SKILLS

Languages: C++, C#, Python, Java | **Core CS:** Data Structures, Algorithms, OOP, DBMS, Computer Networks, Event-Driven Architecture
Backend: .NET / ASP.NET Core, Microservices, REST, API Design | **Testing:** Automated Testing, Debugging | **Concurrency:** Multithreading, Async Programming | **System Design:** Distributed Systems, Low-Latency Systems, High-Throughput Systems, Caching, Load Balancing, Kafka, Fault Tolerance | **Tools:** Git, Linux, Visual Studio, Rider | **Networking Protocols:** TCP/IP, UDP, WebSockets | **Security:** Authentication, API Security | **Game Development:** Unity (C#), Unreal Engine (C++/Blueprints), Gameplay Systems, Multiplayer Systems, Physics Systems, AI (State Machines, IK) | **Expertise:** Gameplay Framework, Animation Systems, Materials & Shaders, Level Design, Debugging & Optimization | **Performance & Optimization:** Profiling, FPS Optimization, Memory Optimization, Load Time Optimization, Multithreading
Tools & Engines: Unity Editor, Prefabs, Scriptable Objects, Animator, Asset Bundles, Unreal Editor, Rider, Visual Studio, Git, GitHub, Plastic SCM, Perforce, Visual Studio, SourceTree | **Multiplayer & Networking:** Photon PUN2, WebSockets, TCP/IP, UDP | **Platforms:** Android, iOS, PC, WebGL, VR | **Backend Integration:** REST APIs, Firebase, JSON

PROFESSIONAL EXPERIENCE

Unity Developer - Level 3

Nazara Technologies, India | 03/2025 - Present

- Developed **simulation-based gameplay systems** in Unity with realistic physics, improving system stability by **25%**
- Applied **Clean Architecture**, reducing maintenance effort by **40%**
- Built **modular gameplay, UI, and data systems**, improving development efficiency by **30%**
- Integrated **In-App Purchases (IAP)** with validation and restore, ensuring **100% transaction reliability**
- Integrated **ad SDKs (AdInMo)**, increasing monetisation by **20%**
- Developed **custom Unity editor tools**, reducing manual workflows by **35%**
- Optimised performance using **Unity Profiler and multithreading**, maintaining **60+ FPS under heavy load**
- Designed **data-driven systems with real-time feedback**, improving interactivity by **25%**
- Collaborated cross-team to improve asset and system integration, reducing issues by **15%**
- Delivered **cross-platform builds (PC, WebGL, VR)** with consistent performance

Unity Developer - Level 2

Metaspace, Noida, UP, India | 02/2023 - 02/2025

- Led development of **multi-user 3D/VR systems**, improving performance by **20%**
- Designed and implemented **AI-driven NPC systems (state machines, IK)**, increasing engagement by **40%**
- Developed **gameplay mechanics (combat, progression)**, improving retention by **30%**
- Developed **real-time multiplayer gameplay systems using Photon PUN2**, enabling smooth interaction and **low-latency synchronisation**
- Designed **responsive UI/UX systems (inventory, loadout)**, improving user satisfaction by **35%**
- Integrated backend systems (**REST APIs, Firebase, JSON**), improving reliability by **25%**
- Implemented **secure authentication (Web3Auth)**, improving onboarding by **15%**
- Optimised game systems and workflows, increasing efficiency by **15%** and revenue by **25%**
- Mentored junior developers and conducted code reviews

Unity Developer - Level 1

Oryggi Technologies, Noida, UP, India | 05/2022 - 02/2023

- Developed **VR-based training simulations** with **90% real-world accuracy**
- Built a **cybersecurity simulation platform**, improving training effectiveness by **25%**
- Designed **modular VR systems**, improving usability by **20%**
- Reduced defects by **15%** through testing and debugging

Game Developer

Freelance, India | 01/2021 - 04/2022

- Developed and published **15+ mobile games**, achieving a **4.5 average rating**
- Built **cross-platform applications** using Unity and Unreal Engine
- Designed gameplay systems, UI/UX, and physics mechanics, improving engagement by **20%**
- Delivered client solutions with **95% satisfaction rate**

PROJECTS

- Fire Safety Simulation** – Developed an immersive VR training simulation focused on emergency response and safety procedures. Simulated realistic fire scenarios and evacuation routes to enhance user preparedness. (Unity, C#, VR) – [Watch Video](#)
- Dark World** – Created a puzzle-platformer emphasising mystery, exploration, and problem-solving. Designed intricate levels with immersive storytelling elements. (Unity, C#, PC) – [Watch Video](#)

EDUCATION

B.Sc. (Hons) Backstage Pass Institute of Gaming and Technologies, Hyderabad, India

06/2019 - 06/2023

- Major in Computer Science & Game Development
